

Tapered Wood-Sided Wagon Model H0767

INTRODUCTION

The Model H0767 Tapered Wood-Sided Wagon features 8 1/4" high wooden interlocking side panels that are easily removed for access to the 14 3/4" x 33" bed.

REMOVAL & INVENTORY

1. Remove your new wagon from the carton.
2. Compare all the contents with the inventory list below **Figure 1**.

FRONT SUPPORT ASSEMBLY

1. Slide the front axle assembly onto the pivot post of the bed.
2. Fasten using the lock pin and collar.

WHEELS

1. Inflate each wheel to 30 psi.
2. Slide a wheel onto each axle with the valve stem to the outside.
3. Push a hub cap onto the end of each axle until flush with the wheel.

BED & SIDE PANELS

1. Place the bed on top of the frame.
2. Insert one of the side panels into the frame, making sure the slotted panel housing is facing inside.
3. Place the front and rear panels inside the slotted panel housing on the side panel installed in **step 2**.
4. Insert the other side panel into the frame, making sure the front and rear panels each slide into the slotted panel housing.

PULL HANDLE

1. Align the holes on the end of the pull handle with the opening of the front axle assembly.
2. Insert the M8-1.25 x 95 slotted screw into the holes and fasten using the 8mm flat washer, lock washer and acorn nut.

If you need additional help with this procedure, call our service department at: (570) 546-9663. Panther™ products are manufactured by Grizzly Industrial Inc.
